MasterTrain

Microsoft 365 · Data Analysis · Copilot

Company profile

Who we are

MasterTrain is a South African Microsoft training company, run by Mike van Niekerk. Training is all we do: practical Excel, Power BI, Microsoft 365 and Copilot courses for companies, delivered on-site anywhere in South Africa, in Pretoria, or live online.

Why companies choose us

• **Built around your files.** Teams practise on their own workbooks wherever possible.

• **Every level, one provider.** From beginner to VBA, Power BI and Copilot.

• **We come to you.** On-site countrywide, in Pretoria, or live online.

• **We wrote the book.** Lead trainer Mike van Niekerk is the author of *VBA Automation for Excel 2019 Cookbook* (Packt, 2020).

Courses

Course	Duration	Level
Excel Introduction	1–2 days	Beginner
Excel Intermediate	2 days	Intermediate
Excel Advanced	2 days	Advanced
Excel VBA & Macros	2–3 days	Expert
Power Query	1 day	Intermediate
Power BI Desktop	2–3 days	Intermediate
Word for professionals	1 day	All levels
Outlook & Teams	½–1 day	All levels
PowerPoint that persuades	1 day	All levels
Copilot Level 1 (partner facilitator)	½ day	Foundations
Copilot Level 2 (partner facilitator)	2 days	Power users

Copilot is the turbo, not the engine

Copilot speeds up people who already know Microsoft 365, Excel and Power BI. Teams without the basics just get wrong answers faster. We recommend core skills first, then Copilot Level 1 and 2.

Build & Automate

Excel and VBA automation, Power BI dashboards with handover training, custom web apps and staff hubs, and Copilot adoption programmes. Ask about our free spreadsheet health check.
